

Quality & Service are Our Strength

FARZAM
ENGINEERING & DEVELOPMENT

FARZAM CO. is an international Engineering, Procurement, and Project Support company specializing in the supply of industrial equipment and engineering solutions for the Oil & Gas, Petrochemical, Power Generation, Water Treatment, and Process Industries.

OUR CORE PRODUCT PORTFOLIO INCLUDES:

- Engineering & License for petrochemical industries
- Pumps and Compressors
- Gearboxes and Power Transmission Equipment
- Process Packages and Modular Skid Systems
- Turbines and Power Generation Equipment
- Instrumentation and Control Systems
- Rotating Equipment and Industrial Spare Parts
- Drilling equipment in full rang

FARZAM

ABOUT US

Farzam Co. is a dynamic and rapidly growing organization committed to excellence, innovation, and customer satisfaction. Through strong relationships with leading global manufacturers and technology partners, we provide high-quality products, competitive commercial solutions, and comprehensive project support throughout the entire project lifecycle.

By combining technical expertise, global sourcing capabilities, and responsive customer service, we help our clients reduce procurement risks, optimize project performance, and achieve long-term operational success.

Our experienced team of engineers and procurement specialists provides a level of service that goes beyond traditional sourcing. We work closely with our clients to deliver tailored solutions that meet their technical, commercial, and project requirements with efficiency, reliability, and precision, regardless of project location.

PASSION THAT DELIVERS RESULTS

Our products and services support a wide range of industries, including Oil & Gas, Petrochemical, Power Generation, Water Treatment, Mining, Steel, Marine, Manufacturing, and Infrastructure sectors worldwide.

OUR ACTIVITIES

- Oil and Gas treating
- Desulfurization
- Separation
- Metering
- Compression
- Fired crude heaters
- Dehydration
- Water separation
- Desalting
- Gas sweetening

OUR SERVICES

- Design
- Treatments
- Procurement Services
- On-Site Services
- Fabrication
- Commissioning and installation
- Testing
- Upgrading

FARZAM

PRODUCTS

PROCUREMENT

Mechanical

- Piping materials
- Valves
- Plate

Rotary equipment

- Full range of pumps
- Compressors
- Spare parts

Industrial chemical

- Petrochemical and refinery
- Oil and Gas
- Water treatment

PROCESSES SKID & PACKAGES

- Oil / Gas/ Water separation
- Dehydration / Desalting
- Desulfurization Unit
- Fuel Gas and Oil system
- Flow Meter
- Instrument and Service Air Packages
- Chemical injection package
- Water Treatment Packages (primary & secondary water/biological) Diesel Oil Package
- Hydrogen Production Package
- Nitrogen Production Package: (Membrane & PSA)
- Trucks And Rail Tankers Arm Loading Systems
- Fire Fighting Packages
- Early Production Facilities (Manifold, Well Test Production, HP & LP Test Separators, Slug Catcher, Oil Stabilizer)

FLARE SYSTEM

We can offer a complete service for flare system including refurbishment and upgrade.

- Flare gas recovery design, fabrication, installation and commissioning.
- Feasibility study
- Engineering design to client requirements
- Complete skid mounted packages with control system
- Industrial filtration
- Diesel coalescer (Liquid-Gas separators)
- Flame arrester
- Pressure vessels and tank
- Pig traps

OTHER PRODUCTS

- control system
- Recovered gas dew pointing, gas sweetening
- Fire heaters and furnace
- Heat exchangers
- Lube oil
- Pump skid
- Wellhead Control Panels
- Electro-pneumatic Control Panels
- Hydraulic Power Units

FARZAM

SERVICES

DESIGN

- From concept to commissioning
- Feasibility studies
- Technology and process licensor selection
- Planning
- Cost estimation
- Project management
- Basic and detail engineering through our principals
- Refinery optimization studies
- Corrosion protection

PROCUREMENT SERVICES

Farzam Co. is experienced in carrying out of all procurement processes including sourcing, purchasing, contract management, material management and shipment to operation site.

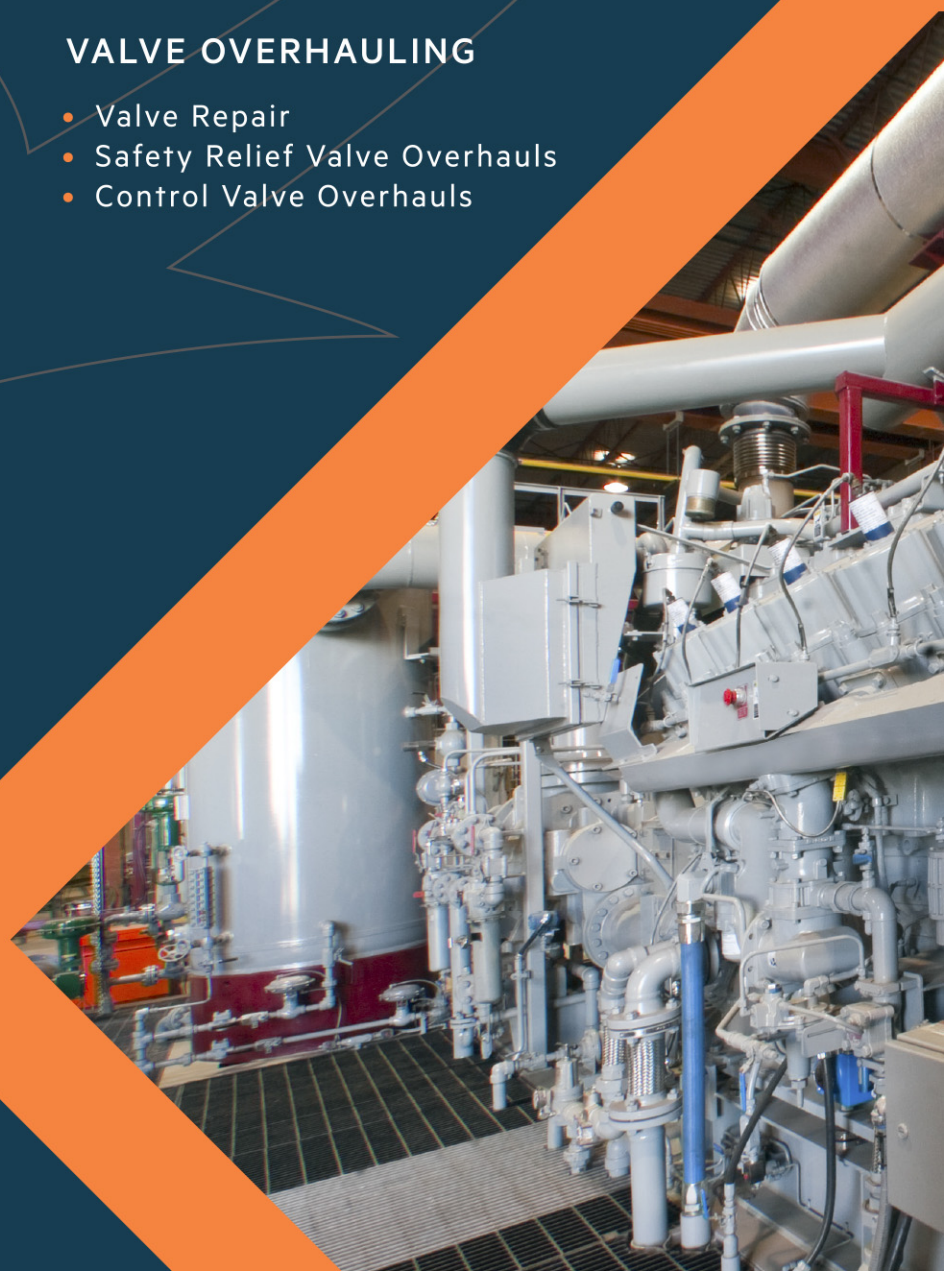

- Turn key solutions
- Retrofit
- Revamping
- Spare parts
- Reverse Engineering

VALVE OVERHAULING

- Valve Repair
- Safety Relief Valve Overhauls
- Control Valve Overhauls

FARZAM

ON-SITE SERVICES

- Construction management
- Third-party inspection
- Commissioning and installation assistance

PUMP SYSTEM

- Rotary shell pump series
- OH1/OH2
- Axial flow pump series
- Magnetic pump series
- Mixed flow pump series
- Self-priming pump series
- VS4, VS6
- BB1, BB2, BB3, BB5
- Volumizing and replenishing pump
- Residual heat removal pump
- Exhaust cooling pump
- Circulating water backwash pump

FABRICATION

- Skid package bases
- Walkways/Stairs
- Platforms
- Support Steelworks
- Pipe Supports
- Pipe Bridges

PIPEWORK FABRICATION

- Carbon Steels
- Stainless Steels
- Duplex and Super Duplex Steels
- Nickel Alloys
- Titanium
- Zirconium
- Clad combinations

ROTATING EQUIPMENT

Farzam works directly with leading global OEMs and trusted manufacturing partners to provide comprehensive solutions for a wide range of rotating equipment, including pumps, compressors, gas turbines, steam turbines, and associated auxiliary systems.

Our capabilities extend from the supply of complete new equipment packages and customized engineered systems to spare parts, refurbishment, overhauls, upgrades, and retrofitting services. We specialize in delivering tailored solutions that meet the specific operational and technical requirements of our clients across the Oil & Gas, Petrochemical, Power Generation, Water Treatment, and Industrial sectors.

In addition, Farzam has extensive experience in sourcing, reverse engineering, and manufacturing high-quality replacement parts for obsolete, discontinued, or long lead-time equipment, ensuring continued reliability and operational availability for critical assets.

All products and services supplied by Farzam are backed by manufacturer warranties or industry-standard quality guarantees, providing our clients with confidence in performance, reliability, and long-term support.

FARZAM

Our Services Include:

- Supply of Pumps, Compressors, Gas & Steam Turbines
- Complete Rotating Equipment Packages
- OEM and Aftermarket Spare Parts
- Reverse Engineering & Obsolescence Management
- Equipment Refurbishment and Overhaul
- Upgrades and Retrofit Solutions
- Technical Support and Engineering Services
- Asset Reliability and Lifecycle Management

By combining technical expertise, global sourcing capabilities, and responsive customer support, Farzam delivers reliable, cost-effective solutions throughout the entire lifecycle of rotating equipment.

LUBRICANTS & ADDITIVES

Farzam is a reliable supplier of high-quality lubricants, base oils, and performance additives serving the Oil & Gas, Petrochemical, Power Generation, Mining, Marine, Automotive, and Industrial sectors. Through strategic partnerships with leading manufacturers and global supply networks, we provide a comprehensive range of products designed to enhance equipment performance, improve efficiency, and extend asset life.

Our portfolio includes automotive lubricants, industrial lubricants, specialty oils, greases, and a wide range of additive packages formulated to meet international standards and OEM requirements. We are capable of supplying products under internationally recognized brands as well as providing private label solutions tailored to specific customer requirements.

In addition to finished lubricants, Farzam offers high-quality Base Oils Group I, Group II, Group III, and synthetic base stocks, together with a complete range of lubricant additives and performance packages used in the formulation of engine oils, hydraulic oils, gear oils, transmission fluids, metalworking fluids, and specialty lubricants.

FARZAM

OUR PRODUCTS

FINISHED LUBRICANTS

- Passenger Car Motor Oils (PCMO)
- Heavy Duty Diesel Engine Oils (HDDO)
- Hydraulic Oils
- Gear Oils
- Transmission Fluids
- Compressor Oils
- Turbine Oils
- Heat Transfer Oils
- Marine Lubricants
- Industrial Oils and Greases

Base Oils

- Group I Base Oils
- Group II Base Oils
- Group III Base Oils
- Synthetic Base Stocks (PAO, Ester)

Lubricant Additives & Packages

- Viscosity Index Improvers
- Detergent & Dispersant Packages
- Anti-Wear Additives
- Antioxidants
- Friction Modifiers
- Pour Point Depressants
- Corrosion Inhibitors
- Extreme Pressure Additives
- Multi-functional Additive Packages

Our Capabilities

- Global Sourcing and Procurement
- Private Label Manufacturing Solutions
- Technical Support and Product Selection
- Customized Formulations
- Supply Chain and Logistics Management
- OEM and International Standard Compliance
- Packaging Solutions and Brand Development

By combining technical expertise with an extensive international supply network, Farzam delivers reliable, cost-effective, and high-performance lubricant solutions to support the operational requirements of customers worldwide.
